

Lid Mosaic

You will need:

- A lid from a canning jar, pickle jar, or similar
- An adult with a nail and hammer or a drill
- Glue
- Beans of different colors, popcorn, and similar
- String or yarn

1. Have an adult punch a hole near the edge of the lid and check for sharp edges.

2. Choose which side of the lid you want to work with. As long as you cover it completely it doesn't much matter, but I suggest using the shiny side of a canning jar lid, but with a pickle lid you might prefer to use the inner white side.

3. Spread a layer of glue on the lid. You can do one part at a time to give yourself more time to work.

4. Take your beans, popcorn, or whatever else you decide to use and place it carefully on the lid in whatever pattern you want. Be creative! The picture is just an example.

5. Leave it sitting flat while the glue dries completely. Once dry, pick it up gently and see whether any pieces fall off. Re-glue as needed.

6. Pass the string through the hole and tie it into a loop.

And you have your mosaic! Hang it somewhere where it will make you smile to look at it.
